

## Covid-19 and Pneumercator

March 23, 2020

To All of our Valued Customers:

Please be advised that Pneumercator plans to remain in full operation during the Covid-19 pandemic, as we are classified as an essential manufacturer supporting critical applications including hospitals, hotels, data centers, water treatment facilities, as well as vehicle gauging systems for diesel locomotive and the U.S. military. During this period, we are taking great care to ensure the safety of our valued team of employees by enforcing a minimum 10' for social distancing, limiting office and lab occupancies to a single individual, keeping all interior doors open to reduce contact surfaces, and having certain individuals work remotely. We will continue to monitor the situation and notify all of you if our status should change. Everyone please be safe!

Sincerely,

A handwritten signature in black ink that reads "Jonathan Levy". The signature is fluid and cursive, with a long horizontal stroke at the end.

Jonathan Levy - President
