

# TMS4000 Quick Reference Guide

## Tank Product SetPoint Alarms\*

<b>CH</b> Critical High	–	Above 98%
<b>HH</b> High High	–	Above 95%
<b>H</b> High	–	Above 90%
<b>L</b> Low	–	Below 20%
<b>LL</b> Low Low	–	Below 15%
<b>CL</b> Critical Low	–	Below 12%

## System Alarm Status and Acknowledgment

-  System Normal
-  Unacknowledged Alarms\*
-  Acknowledged Alarms

Touch to silence front panel horn and access alarm acknowledgment screen. See back for details.

-  Power On
-  System Normal
-  Alarm\*
-  Auto Brightness Sensor

## Sensor Alarm Status and Acknowledgment

-  All sensors normal
  -  Alarms\*
  -  Wiring/Sensor faults
- Touch to view details

## CC Input Alarm Status and Acknowledgment

-  All CC Inputs normal
  -  Alarm and/or Activity\*
- Touch to view details

\* For All Alarms, Blinking indicates unacknowledged condition

## Tank Status

- Tank Active 
- Product Increase 
- Product Decrease 
- Leak Test In Progress
- Ungaugeable Level Warning
- Probe Errors

## Tank Alarm/Activity Priority Window

- ### Tank Alarms
- Product, Water and Temperature SetPoints, Theft,
  - Failed In-Tank Leak Test

# TMS4000 Quick Reference Guide

## Current Alarms

General Alarm: Tank Product, Water, and Temperature SetPoints, Leak/Point Level Sensor, Contact Closure Input

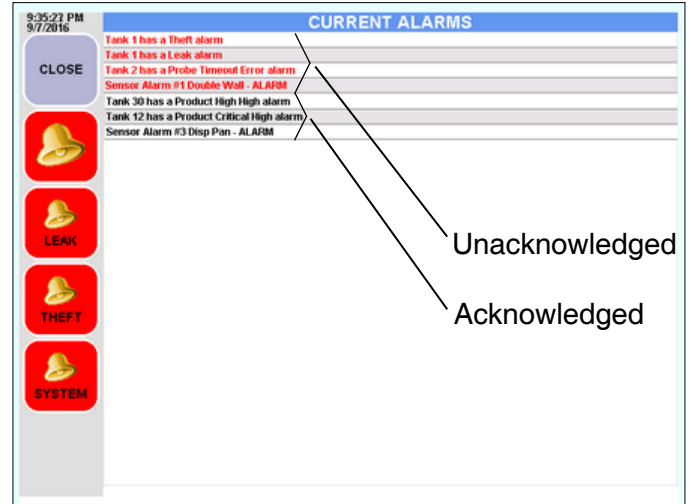

Failed In-Tank Leak Test

Theft

System Errors: Probe Errors, Sensor Wiring Faults

## Leak/Point Level Sensor Statuses

Normal

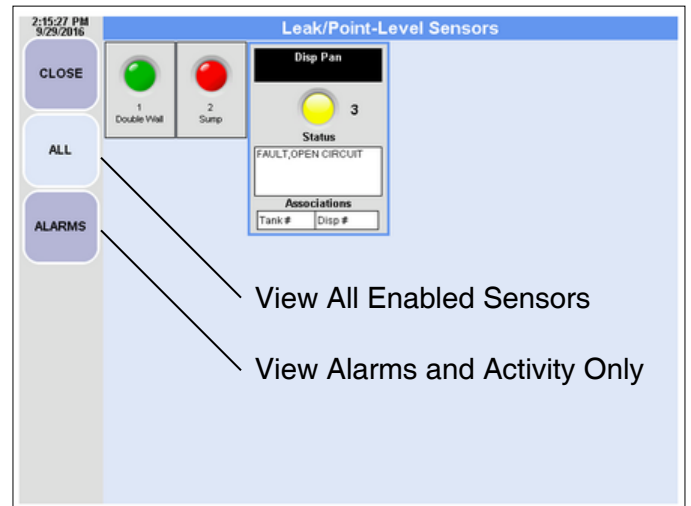

Alarm or Active\*

Wiring/Sensor Fault\*

\* Touch individual Sensor panel for details.

## Contact Closure Input Statuses

Normal: No Alarm or Activity

Alarm or Active\*

\* Touch individual CC Input panel for details
